Dear Umereweneza and Mbotwa,

RE: Grant Notification Award

Reference is made to your application **Reference No 202502280001** for grant funding under **Management of Collaborative Research and Innovation Grants in Rwanda and Malawi**;

It gives us great pleasure to inform you that your collaborative project entitled "**Smart Manufacturing of Low-Cost Point of Use Water Disinfection Units: application of AI and IoT for Optimizing Chlorine Loading in Chlorinated Resins**" has been selected for funding with a total grant amount not exceeding **Frw 65,000,000 in Rwanda and FWK 77,558,871 in Malawi**.

The selection of Research Grants at both Rwanda NCST and Malawi NCST is highly competitive, based purely on scientific merit. Each project proposal that meets all eligibility criteria during administrative screening, is reviewed and scored independently by three reviewers. Consideration for funding is based on the final average score of the three scores and the qualitative reviewers' comments and recommendation for each application. Your project proposal scored **85.33%**, and has been selected for funding out of a very large number of applications.

Kindly ensure that you approach the Head of Department for National Research and Innovation Fund (NRIF) at Rwanda NCST Dr Esperance Munganyinka, on emunganyinka@ncst.gov.rw and Tel +250788630366 and the Ag. Director of Planning at Malawi NCST Mr. Kondwani M. Gondwe,

on kgondwe@ncst.mw or Tel +265995531006 to finalize due diligence in terms of budget and activity plan review and modalities of signing grant agreement with your institution immediately.

See the attached details on grant award requirements.

Congratulations!

Done on 18th July 2025

NCST Malawi

Grant Award Requirements

1. Processes

This notification of grant award is not legally binding. The award is subject to the condition that you meet the requirements for the establishment of the grant agreement between you as PI, your institution and Rwanda NCST and Malawi NCST not later. Below are key requirements:

- ***Revision of the project implementation plan and budget is required:*** Use provided templates to revise your project implementation plan and budget. For the budget, we strongly require that you seek advice and inputs from unit(s) responsible for procurement within your institution, so as to ensure that costs of equipment and other tendering processes are compliant with regulations, realistic and timely with your institution.

- ***Meeting with Grant Management teams to discuss your project implementation plan and budget***: You are required to attend meeting(s) organized Rwanda NCST and Malawi NCST Grant Management teams to discuss and finalize your project implementation plan and budget. The date and format of the meeting will be communicated to you in due time.

- ***Preparation and Signing Grant Agreements***: You will be responsible for following up the process of preparation and signing of the grant agreement as soon as possible and start implementation of the project.

2. Post-Award Training

All applicants receiving grant awards are required to attend post-award training on Research and Innovation Grant Management System (RIGMS) and Grant Financial Management. It is mandatory that both the project Principal Investigators (PI) and the individuals responsible for grant financial management within the PI's institution attend this training.

3. Grant Management

The project leaders and research teams are advised to approach the **Research and Innovation Grant Management teams** Rwanda NCST and Malawi NCST who are responsible for monitoring and assisting with the programmatic activities associated with this project and for assisting the team in grant management and financial aspects of the grant.
